

**PEST CONTROL SERVICES  
SOLICITATION NO. S-EC300-14-Q-0018  
FREQUENTLY ASKED QUESTIONS (FAQS)**

**1. Is it possible to do an inspection of the facilities indicated in the solicitation?**

Solicitation does not include a site visit of our facilities due to security reasons. Most of the pest control services are required for ants, stinging insects, moths, mosquitoes, snails, bats or any other arthropod pests not specifically excluded from the contract

**2. Do we have to work with the pesticides indicated in the solicitation? Can we use other products that comply with sanitary registration and public health?**

The contractor should submit proposed methods for control, including name of any pesticide(s) to be used, specimen labels and Material Safety Data Sheets (MSDS sheets) for all pesticides proposed to be used. The Contractor shall include a list of brand names of rodent bait boxes and any other control devices or equipment. All pesticides used by the Contractor must be authorized by the Department. Department-authorized professional-use pesticides (DAPU) are found in Exhibit 2.

**3. Could you please explain about services to be provided? Are the services going to be provided as per our work plan? If facilities required a pest control to be scheduled every two week or once a month, do we have to provide that agenda?**

Please review Section C where statement of work is described in detail. Pages 6 to 16.

**4. What should we provide with the offer?**

Please review Section L - Instructions, conditions, and notices to offerors or quoters. Pages 55 to 60.
